“System Skills to Thrive in a Changing Health Care Environment”

Monday, May 9, 2016
11:30 a.m.-12:30 p.m.
Great Hall,
Trent Semans Center

Alan M. Jette, PT, PhD
Professor
Health Law, Policy, and Management
Boston University
School of Public Health
Editor-in-Chief
Physical Therapy Journal

We are pleased to have Dr. Alan M. Jette as our 2016 Branch Lecturer. Dr. Jette’s research interests include late-life exercise, evaluation of rehabilitation treatment outcomes, and the measurement, epidemiology, and prevention of disability.

Dr. Jette is an international expert in the development and dissemination of contemporary outcome measurement instruments to evaluate health care quality and outcomes. He has published over 180 peer reviewed articles on these topics.

Throughout his 30+ year research career, Dr. Jette has received consistent research funding from numerous NIH Institutes, the NIDRR, CDC, CMS, SSA, as well as from several foundations and private corporations.

Dr. Jette received a BS in Physical Therapy from the State University of New York at Buffalo in 1973 and a MPH (1975) and Ph.D. (1979) in Public Health from the University of Michigan.

Learn more about Dr. Jette at: http://www.bu.edu/sph/profile/alan-jette/

A reception and lunch will be provided for the Class of 2016 immediately following the lecture on the 6th floor of the Trent Semans Center.
