CANZED Seminars presents...
THE MULLIGAN CONCEPT
Mobilizations with Movement
“Nags, Snags”
LOWER QUADRANT
PRESENTED BY:
Dr. Jack Miller
B.Sc.(P.T.), Dip. MT (N.Z.), MCiSc,
DPT, MCTA, FCAMT
Fellow Canadian Academy
Manipulative Therapy
Accredited Mulligan Teacher
November 12-13, 2016
Durham, NC

All proceeds from the course will be donated to the:

This annual grassroots fundraising effort is coordinated and carried out by physical therapist and physical therapist assistant students across the country to support new investigators in the field of physical therapy research. Since its inception, 264 schools have participated in the Challenge, raising over $3.3 million for physical therapy research.
Course Instructor

Dr. Jack Miller
B.Sc.(P.T.), Dip.MT. (N.Z.), MCISc, DPT, FCAMPT

Jack spent six years practicing Physiotherapy in New Zealand where he completed the New Zealand Manipulative Therapy Association’s post-graduate Diploma program in 1984. He has assisted Brian Mulligan, instructed courses in Europe, the Caribbean and North America and has taught Brian’s courses independently since 1990. He is fully accredited by the Mulligan Concept Teacher’s Association (MCTA) and currently holds faculty positions at the University Of Toronto, McMaster and Western Ontario Universities.

Course Programme

Registration 8:00 a.m.
Clinical Reasoning for MWM's
Ankle dysfunction
“Sprained ankle”
Lumbar SNAGS
Hip dysfunction
“Plantar fasciitis”
Knee dysfunction
Foot/toe dysfunction

Description

This two day seminar deals with Brian Mulligan’s concept of the application of mobilization with movement (MWM), a new and exciting approach in manual therapy. Seminar participants can expect a syllabus high on practical application with a clear understanding of the rationale for use of MWM’s in both the spine and lower extremities.

Following this course, therapists should be able to effectively apply the techniques in their own practices and expect immediate positive patient outcomes.

Brian Mulligan, FNZSP has been New Zealand’s leading international lecturer in manual therapy since 1972. Brian has served as New Zealand’s IFOMT representative, principle instructor for the NZMTA and lecturer at Curtin University in Perth Australia.

He has developed the concept of combining accessory glide mobilizations with patient generated physiological movement (MWM). His publications include articles in the Journal of Manipulative and Manual Therapy, the N.Z. Journal of Physiotherapy and his own publication: Manual Therapy “Nags, Snags and MWM’s”.

Course Requirements

This “hands-on” course is focused towards participants who have achieved at least an intermediate level of experience in manual therapy and wish to broaden their skills yet further. Participants are advised to dress for a lab course and bring a mobilization seat belt for technique practice.

Course Text

A complete syllabus of techniques will be included in the course fee. Brian Mulligan’s text Manual Therapy NAGS, SNAGS MWM’s Etc. is recommended reading. Additionally, a further reading list, clinical practice guidelines and selected relevant articles will be made available to all students.

Listing of United States Mulligan courses and products is available at www.mulliganconcept.com and pre-course reading references at www.bmulligan.com.

Tax receipts and course certificates will be distributed at the completion of the seminar.

Course fee

The course fee is $425.00. This fee covers the cost of the course instruction, the course syllabus, and nutrition breaks. Lunch is on your own.

Cancellation fee is $75.00 (Accepted up to one week prior to Seminar)
